

Dear Reader,

May's scorching heat across the globe has everyone blaming climate change. Government bodies as well as private institutes are rushing to strike balance from introducing a climate finance taxonomy to stakeholders pushing for Net Zero commitments. The push is real and in new forms.

But first, did you understand India's all-new Carbon Credit Trading Scheme?

From our blogs

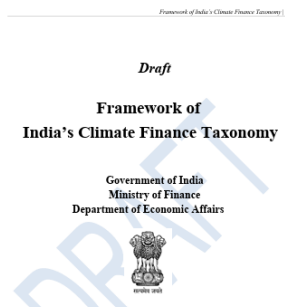

[Everything you need to know about India's new Carbon Credit Trading Scheme](#)

India's Carbon Credit Trading Scheme is ushering in a regulated carbon market, redefining how businesses manage emissions. CCTS also marks a new era of turning carbon savings into a market advantage. [Read more...](#)

[India defines 'Green investment' with its 1st Climate Finance Taxonomy](#)

India has released the first draft of its Climate Finance Taxonomy, offering a clear framework to classify green economic activities in sectors like energy, transport, buildings, forestry, and agriculture. It aims to guide investors and businesses in aligning with climate goals, attracting sustainable finance, and ensuring regulatory readiness. [Read More](#)

[\\$1.6 Trillion investor group pressures HSBC to reaffirm Net Zero commitment](#)

A \$1.6 trillion investor group is pressuring HSBC to reaffirm its net-zero goals after the bank delayed its 2030 emissions target to 2050, citing numerous reasons including the stepping down of its Chief Sustainability Officer, which raised concerns about its climate commitment. [Read More](#)

[Adani Green starts new 187.5 MW solar project, grows clean energy capacity](#)

Adani Green Energy's subsidiary, Adani Renewable Energy Fifty Seven Limited, has operationalised a 187.5 MW solar power project, increasing the company's total renewable capacity to 14,528.4 MW. This addition is part of the world's largest hybrid renewable energy park. [Read more...](#)

Climate Controversy

Clouds of doubt

Delhi's cloud seeding plan to reduce pollution has sparked debate. Experts question its effectiveness during dry months and raise concerns over chemical use and environmental impact—calling it a costly distraction. [Read more...](#)
