

# The Sustainability Cloud **DIGEST**

Enterprise software platform for ESG and climate action.

Dear Reader,

This July, sustainability headlines were filled with ambition and action. India made global news by achieving its 2030 emissions intensity target well ahead of schedule. But alongside big wins, we're also seeing a tightening of the rules. The Environment Ministry's latest draft for a compliance-based carbon market lays down sectoral emission targets, making it clear: voluntary action is no longer enough.

Happy Reading!

## Policy Tracker

### **India achieves 50% clean energy, 5 Years Early**

India has achieved its 2030 emissions intensity target of reaching 50% of its installed electricity capacity from non-fossil fuel sources, five years ahead of schedule, marking a major climate milestone under its updated NDCs to the Paris Agreement. [Read more...](#)

### **India sets emission targets for 460+ industrial units**

The Environment Ministry has proposed legally binding emission targets for 460+ industrial units under India's Carbon Credit Trading Scheme. Sectors like steel, aluminium, and textiles must cut emissions per unit of output or buy carbon credits for 2025–27. [Read More](#)

### **Bisleri turns plastic bottles into fabrics**

Bisleri International and Ecoline Clothing have partnered to turn PET bottle waste into sustainable apparel. A refreshing take on circularity, the initiative merges environmental responsibility with fashion innovation proving that reuse can be both practical and stylish.

## Client Speaks

### **Nestle modernizes its waste water monitoring**

*"The Sustainability Cloud easily integrated with our environment data coming from various systems within our plant and enabled us to centrally manage our environmental footprint. Through direct integration with regulatory platforms, we have also gained peace of mind when it comes to managing our environmental compliance and this keeps our Sustainability team always in good spirits! I would strongly recommend the platform to any company looking to manage environmental footprint."* [Read the full case study.](#)

## Climate Controversy

### **An unconventional carbon credit cover?**

Reliance Foundation owned animal conversation centre, Vantara is being speculated to be a carbon credit bank launched right when India is in the process of shaping its Carbon Market. [Read more...](#)

## Company Update

July saw the launch of our much-awaited TSC Partners, our all-new portal dedicated to our channel partners. Here's a brief look at its key features:

- Control client's subscription renewal
- Faster existing customer renewals
- New customer onboarding
- Subscription tracking
- Quotations for new enquiries
- Digital payment gateways for new and existing customers
